Gaco Deck Coating

Product Category:

Specialty Sealants

Manufacturer:

Gaco
18700 South Center Parkway
Tukwila, WA 98188
866-422-6489

Product Name:

Gaco Deck Coating

Environmental Benefits:

Human Health

- . Low VOC Content
- . Water based (easy cleanup with soap and water)
- . Durable and tough without harmful and unhealthy vapors

Product Specifications:

Water-borne, single component elastomeric coatings are characterized by excellent hardness, strength, adhesion and water resistance. Excellent color stability, gloss retention and chalk resistance. Gaco Allows homeowners to install a high quality, waterproof deck system on rooftop decks, walking decks, patios, boat landings, ramps, and other walking surfaces. With Gaco you can easily waterproof both rooftop decks and over occupied living space and walking decks.

User-friendly sophisticated Acrylic Polymer Blend developed in 1988.

Green building is high performance building!

Water Based Urethane

Product Category: Interior Transparent Finishes

Manufacturer: Valspar
1191 Wheeling Rd.
Wheeling, Ill 60090
800-845-9061
www.valspar.com

Product Name: Water Based Urethane

Environmental Benefits: **Human Health**

- . Low VOC Content
- . Indoor Environmental Quality
- . Easy clean-up without noxious odors or smog-forming VOCs

Product Specification: In recent years, polyurethane and other clear interior finishes have dramatically decreased the amount of volatile organic compounds (VOC's) that they offgas. Waterborne polyurethanes are becoming common alternatives to conventional solvent-based products. These type products have low VOC levels, are derived from natural materials, or have exceptional durability.
